PARIS, Sept. 18 (UPI)—Pierre Salinger, honorary chairman of Vice President Humphrey's European campaign, charged today that Richard M. Nixon, the Republican presidential nominee, is a "white-gloved Wallace," referring to third-party candidate George C. Wallace.

Salinger, press secretary to President Kennedy and an early supporter of Sen. Robert F. Kennedy for the Democratic presidential nomination, said Nixon's failure to confront the U.S. racial problem was one of his reasons for joining the Humphrey campaign.

Salinger, who heads an investment frim here, said Nixon and his running mate, Gov. Spiro T. Agnew of Maryland, are trying to "out-Wallace Wallace" on the issue of law and order."
